

The reasons *Why I Chose Taiwan and NCTU*

Name: Do Hai Dung (Dee Do)

Degree	Master's
Major (Department)	Global MBA
Home country	Vietnam
Name of University / high school you graduated before studying at NCTU	Hanoi of Transports and Communication
Please tell us your reasons for choosing to study in Taiwan	The 1st reason would be living fee in Taiwan is affordable in comparison with many other countries. Another reason is that I heard a lot of good things of Taiwan before I came here, namely beautiful landscape, interesting culture and even Taiwanese. After more than one year in Taiwan, I can assure that Taiwanese people are the most beautiful scenery, intangible treasure of Taiwan. Most of them are very kind, friendly and well organized. Let's ask many other foreigners in Taiwan how they feel secure when they live in Taiwan ;)
Please tell us your reasons for choosing to study in NCTU	Speak frankly, I chose NCTU because of good ranking in Taiwan and its scholarship offered to me. At that time, I did know much about NCTU. Fortunately, my student life in NCTU is much more interesting than I expected. Too many things can be named here but I leave them for you to discover by yourself, otherwise you will just think that I'm purely promoting my school. Maybe it's basically true but I just tell the truth from my own experience.

How did NCTU's degree help you for your career? In other words, is NCTU's degree helpful for your career or job-hunting?)	I did my internship just some months ago. I found NCTU's reputation very helpful to find a job or an internship. When you come to Taiwan and people know you are from NCTU, many of them would keep saying you are so smart and respect you to some extent. I have heard a lot of words like that since I came here and the feeling is quite interesting (of course). For employers, they always give priority for students from top schools like NCTU. You will know this very clearly if you go for interview with company and your competitors are just from low or middle ranking school.
Your opinions or suggestions for prospective students	My suggestion is that you should consider schools with good reputation which may be important to your career path in the future. I do not know how the life is in other schools so I cannot compare with the student life in NCTU. But to me, I have been experienced a fun and meaningful period in NCTU. Welcome you to my school - NCTU!
